

10 WAYS TO OFFSET YOUR STUDY ABROAD CARBON EMISSIONS

Where'd You Go?

Sydney, Australia
8,900lbs of carbon

Delhi, India
7,400lbs of carbon

Athens, Greece
5,500 lbs of carbon

Padua, Italy
4,900lbs of carbon

Rio de Janeiro, Brazil
4,700lbs of carbon

Alicante, Spain
4,500lbs of carbon

London, UK
4,400lbs of carbon

Puntarenas, CR
2,200lbs of carbon

Santo Domingo, PR
2,000lbs of carbon

Havanna, Cuba
1,400lbs of carbon

What Can You Do?

01 Chill Out

You can save 4,000 pounds of carbon annually by washing one load of clothes per week with cold water rather than hot water!

02 Ditch the Mini Fridge

Did you know that mini fridges use nearly the same amount of energy as a full sized fridge? Save 600 pounds of carbon annually if you get rid of your mini fridge!

03 Pump it Up

Keeping your car's tires properly inflated will save you 700 pounds of carbon annually. You'll also save money on gas!

04 Light it Up

Switching just 15 incandescent bulbs to LEDs can save 4,300 pounds of carbon annually!

05 It's Getting Hot(er) in Here

By adjusting the thermostat up in the summer or down in the winter, you can save 320 pounds of carbon annually for each degree adjustment!

06 Steamy Showers

Most water heaters are set to 140 degrees, but you can turn yours down to 120 degrees without noticing any change. This can save 1,200 pounds of carbon annually!

07 Canivore No More

By opting to eat vegetarian, you can save 2,700 pounds of carbon annually!

08 These Boots Are Made for Walkin'

By walking or biking to school, you can save 780 pounds of carbon annually!

09 Don't be Trashy

By recycling instead of land filling, you can save 300 pounds of carbon annually!

10 Plug it In

By using a power strip for your electronics, you can save 300 pounds of carbon annually!
